RE: Air Emission Permit
(Permit No. 1176-91-OT-3)

Dear Ms. Bartels:

Enclosed is an application for an Air Emission Permit to connect the R & D pilot plant to the thermal oxidizer at Interplastic Corporation's facility located at 2015 Northeast Broadway Street in Minneapolis, Minnesota.

While this is a minor emissions source, in the interest of optimizing air quality, I am requesting that the Minnesota Pollution Control Agency grant Interplastic a "pronto" permit to allow us to connect the pilot plant to the thermal oxidizer.

Should you have any questions regarding this application, please do not hesitate to contact me or Steve French, Corporate Project Engineer of Interplastic Corporation.

Sincerely,

INTERPLASTIC CORPORATION

Robert C. Hoffman,
Chief Environmental Officer
